Product description

High-quality aluminum threshold aid to bridge a height difference of 1.5 to 6 cm. This threshold plate is widely used for mopeds, bicycles, motorcycles, wheelchairs, scooters, mobility scooters or rollators. The big advantage of this type of threshold aid is that no major adjustments are required, both indoors and outdoors. You can easily place the threshold aid in the desired room, balcony, stairwell or wherever you want. Due to the hinge in the middle, it always falls flush with the floor. The ramp has a maximum load capacity of 500 kg, which makes it possible to use the ramp on a daily basis. Made of aluminum, this makes the ramps super light and easy to carry.

Specifications

Article arrangement: New

Version: aluminium hinged 1.5 to 6 cm

Floor: driving area of anti slip profile

Width (mm): 700

Weight (kg) 7

Drive width: 700

Max Height (mm): 60

Type: treshold plate

Material: aluminium

Length (mm): 600

Loading capacity (kg): 500

Type number: SBA

Min Height (mm): 15

EAN Code (Gtin) 8719424025569
