Technical information

Productnumber : 53-JC10-W

Product description

10 liter jerry can (BPA free*) with tap for drinking water or other food, blue cap. Made from the highest possible quality food grade HDPE. The tap has a spout of 10 mm with which approximately 2 liters per minute can be drained (water). If desired, a hose can easily be connected to the tap. The jerry can is natural in color and translucent so that it is easy to see how much liquid is left in the water tank. To ensure that you do not lose the screw cap, it is attached to the neck of the jerry can with a plastic cord. This allows air to escape along the screw thread, which ensures a better and even flow of the fluid.

Attention! Not suitable for fuels such as gasoline

* Bisphenol A (BPA) is a chemical found in many products. BPA is a plasticizer and is used to make plastics and plastics elastic. BPA is used in plastics that are used in, for example, building materials, electronics, plastic bottles, (food) packaging material, implants, infusion equipment and toys.

Specifications

Article arrangement: New
Version: suitable for drinking water
Food-safe: yes
Length (mm): 280
Height (mm): 380
Weight (kg) 0.4
EAN Code (Gtin) 8719424084351

Type: plastic canister
Material: HDPE
Colour: blue/white
Width (mm): 145
Volume (ltr): 10
Type number: 53-JC
