Product description

A used anti-theft roll cage on A-frame made of electro-galvanized steel. Designed to provide both durability and security for transporting and storing goods. Electrogalvanized steel provides excellent corrosion resistance, making the roll cage resistant to rust and other forms of wear and tear that can occur with prolonged use, even in humid environments. Mesh walls and a mesh bottom offer several advantages. First, they provide good air circulation, keeping the contents of the roll cage well ventilated. Second, mesh walls and bottom offer visibility of the contents, making it easy to check what is being transported inside the roll cage without opening it. The rubber wheels offer excellent grip and cushioning, ensuring smooth and quiet transport even on uneven surfaces. Thus, the roll cage is highly maneuverable and very easy to use. The folding shelf offers flexibility when loading and unloading goods. It allows you to adjust the height of the storage area according to the size of the load, which is convenient when transporting different types of products. The A-frame design allows you to efficiently nest multiple roll containers when not in use, saving valuable space during storage and transportation when the roll containers are empty.

Note: Delivery without padlock.

Specifications

Article arrangement: Used

Version: A-nestable

Walls: mesh

Wheels front: 2 castor wheels solid rubber 125 mm

Wheels back: 2 fixed wheels, solid rubber 125 mm

Colour: colorless

Length (mm): 850

Width (mm): 670

Height (mm): 1850

Volume (ltr): 790

Weight (kg) 51

Additional specifications: rubber wheels

Type: Full Security

Material: steel

Floor: steel

Subgroup: Roll cage used

Shelves: floor / 1 shelf / foldable

Surface treatment: electro-galvanized and use damage

Internal length (mm): 800

Internal width (mm): 620

Internal height (mm): 1600

Application: incl. 1 level

Type number: 7298GB

EAN Code (Gtin) 8719424235555
