Product description

Used plastic transport roller with Euronorm dimensions of 800x600 mm, suitable for Euro bins with dimensions of 800x600 mm. The transport roller is fitted with high-quality nylon wheels for optimum performance and durability. Two 80 mm swivel wheels are mounted at the front, making the roller smooth and easy to manoeuvre, even in the tightest spaces. At the rear are two 100 mm fixed-wheel castors, which provide stability and ensure a smooth ride over a variety of surfaces. Whether in warehouses, distribution centres, factories, shops, logistics operations or even the food industry, this transport roller fits perfectly in different environments. Thanks to its durable plastic construction, it can withstand heavy loads and the most demanding conditions. In short, this transport roller is a versatile and indispensable tool that can be used in various environments where efficient transport of goods is required.

Please note! Excluding plastic stacking bins.

Specifications

Article arrangement: Used

Version: suitable for euro containers 800x600 mm

Wheels front: 2 swivel castors, 80 mm

Euronorm (mm): 800 x 600
