Product description

Used set of pallets with side walls. Contains one wooden pallet with two green steel sidewalls. 1200x1200x1150mm

For safely securing goods for warehouse or transport. The sturdy side walls function to store contents. The side walls are open so that it is possible, for example, to use a lashing strap to secure goods more tightly for transport. The side walls are removable, so the pallet can also be used without them.
