Technical information

Productnumber : 38-FC6422-L

Product description

Foldable plastic crates that are easy to set up and fold down again using an innovative click system. The crate is, among other things, intended for the transport and storage of fruit and vegetables and other foodstuffs. Perforation in bottom and walls for ventilation and cooling. Equipped with 4 open handles for optimal handling. Easy to clean thanks to smooth bottom inner walls. Are you temporarily not using it? Then you can simply stack these crates when folded, which results in a volume reduction of 70%.

Specifications

Article arrangement: New

Version: walls + floor perforated

Walls: open handles

Food-safe: yes

Colour: green/ yellow

Internal length (mm): 560

Internal width (mm): 360

Internal height (mm): 210

Volume (ltr): 46

Type number: 38-FC6

Additional specifications: suitable for food industry

Type: stackable and foldable

Material: polypropylene

Floor: perforated

Euronorm (mm): 600 x 400

Length (mm): 600

Width (mm): 400

Height (mm): 220

Loading capacity (kg): 20

Weight (kg) 1.5

Temperature resistance: -30°C tot +60°C

EAN Code (Gtin) 8719424150148
