Technical information Productnumber : 38-FB6430-E3-N

Product description

Plastic stacking box E3 meat crate 600x400x300 mm 62 liters green. These meat crates are the standardized crates for the meat processing industry, also called pool E crates and can be used between temperatures of -30°C to +80°C. The meat crates meet the most recent EHI and DIN 55 423 standards. Equipped with a smooth bottom so that the meat trays can be used on roller conveyors.

Easy to clean, comply with the hygiene HACCP for the food industry production processes. Resistant to the most aggressive chemicals, acids and alkalis. HDPE plastic is tasteless/odorless and ensures a long life. 4 open handles for a pleasant handling. There are air perforation holes around the top for ventilation and cooling. All walls are studded for easy placement and removal of labels and stickers.
