## Technical information

**Productnumber : 98-7329GB**

### Product description

Used 600x400x190 mm plastic stacking bin. The design of this bin adheres to the 600 x 400 mm Euronorm, a standard size which is easy to integrate into logistics processes that also use these dimensions. The open handles on the short sides make it easy to handle and move the bin. The perforated walls and bottom offer excellent ventilation, allowing the bin's contents to breathe well and remove any humidity. The bin is also stackable, which saves a lot of space for storage. This bin is made of polypropylene, this material is known for durability, versatility and makes it suitable for foodstuffs.

Note! The bins all have the same dimensions, only the internal bottoms differ in perforation shape. There are also minor deviations externally. See photos.

### Specifications

Article arrangement: Used  
Version: walls + floor perforated  
Walls: open handles  
Food-safe: yes  
Colour: black  
Length (mm): 600  
Width (mm): 400  
Height (mm): 190  
Volume (ltr): 28  
Type number: 7329GB

Type: stackable  
Material: polypropylene  
Floor: diverse  
Euronorm (mm): 600 x 400  
Surface treatment: signs of use  
Internal length (mm): 575  
Internal width (mm): 375  
Internal height (mm): 130  
Weight (kg) 0.5
