Product description

Economical combination set of 1 stacking rack including 4 stanchions of 1050 mm long. Indispensable in every warehouse!

These TÜV certified stacking racks can be used as mobile storage racks. Available in various versions, but above all flexible in height. The loading floor is designed for all standard pallet sizes, voluminous or goods that are difficult to palletise.

You can determine the height of the stacking racks yourself by making a choice from the stanchion lengths below. To determine the useful height (read: height to be loaded), take the total stanchion length minus 170 mm (example: stanchion length 1680 mm - 170 mm = 1510 mm). Of course, deviations from the standard lengths are possible, please contact us for the possibilities.

An indispensable logistics solution for almost any warehouse or company logistics. Think of environments such as the metal industry, large construction, small construction, production companies and the automotive industry.

Looking for a temporary solution? Also available in our rental offer!

Specifications

Article arrangement: New

Version: with 4 stanchions from 1050 mm

Floor: open lattice frame

Surface treatment: galvanized

Internal length (mm): 1300

Internal width (mm): 930

Useful height (mm): 880

Loading capacity (kg): 2000

Type number: 87301

Type: mobile storage rack TÜV

Material: steel

Colour: colorless

Length (mm): 1530

Width (mm): 1165

Height (mm): 1095

Insertion height (mm): 100

Weight (kg) 53

EAN Code (Gtin) 8719424155792
