Product description

A new flower trolley including 20 used stacking crates.

A flower trolley, also called Danish trolley, auction trolley or cc container, is extremely suitable for use at, for example, a flower auction for transporting flowers and plants in bulk. This demountable auction trolley is the most widely used roll container in the European floriculture sector. In addition, the Danish trolley can also be used for other activities such as order picking, archiving or storage. Equipped with an electrolytically galvanized steel frame: 4 removable stanchions/stiles 30 holes and 4 adjustable/removable shelves made of 6 mm waterproof plywood with a galvanized metal edge. The shelves have a load capacity max 100 kg per shelf. The total load capacity of the safe trolley is 375 kg and is thus extremely suitable for heavy loads. By adjusting the shelves, the cart can be used for small and low items as well as higher items. The flower trolley is designed to meet specific requirements according to horticulture such as size, weight and quality of metals which are galvanized and thus rust resistant. This warehouse trolley is known for its maneuverability due to its 2 fixed and 2 swivel wheels made of polypropylene with a diameter of 125 mm. This ensures maneuverability and smooth mobility even on uneven surfaces. Easy to transport because they are fully dismountable. This allows you to use your storage space efficiently.

The used stackable euro crates have the dimensions 500x300x260 mm and have a capacity of 29 liters. This gray/green stackable bin is made of plastic and has perforated walls 260 mm high and a perforated bottom. This makes the storage box dirt and air permeable, thus the contents are optimally protected. Its two open handles on the short sides make the bin easy to pick up and put away.

Specifications

Article arrangement: New

Version: incl. 20 stacking crates

Walls: open

Wheels front: 2 castor wheels polypropylene, 125 mm

Wheels back: 2 fixed wheels, polypropylene, 125 mm

Colour: colorless

Length (mm): 1350

Width (mm): 560

Height (mm): 2095

Weight (kg) 58.5

Type: Flower cart / Danish cart

Material: steel

Floor: wood

Subgroup: shelved trolleys

Shelves: 4 adjustable shelves

Surface treatment: electro-galvanized

Internal length (mm): 1255

Internal width (mm): 545

Loading capacity (kg): 375

Capacity: 100 kg per shelf
