

Technical information

Productnumber : 36-S1100

Product description

The galvanized waste container with a capacity of 1100 liters is the ideal solution for all types of waste disposal and recycling of materials. The waste bin has a hinged lid with 2 handles with child protection. The galvanized waste container complies with the DIN EN 840 standard and is therefore suitable for DIN intake. This means that garbage trucks with the same systems can easily empty these waste containers. The solid rubber swivel wheels and the sturdy handles ensure optimal maneuverability. The robust housing made of galvanized and corrosion-resistant sheet steel guarantees a long service life for the waste container. Thanks to this material, this waste container offers safety in fire-sensitive locations such as garages and industrial installations.

Specifications

Article arrangement: New

Version: with hinged lid and child protection

Wheels front: 2 castor wheels with wheel locks 200 mm.

Wheels back: 2 castor wheels solid rubber, 200 mm

Surface treatment: galvanized

Width (mm): 1000

Loading capacity (kg): 605

Weight (kg) 118.5

Type number: 36-S1100

Type: for DIN-intake

Material: steel

Subgroup: Waste container

Colour: colorless

Length (mm): 1370

Height (mm): 1470

Volume (ltr): 1100

Options: EN 840 - 3/5/6 certified

EAN Code (Gtin) 8719424122923
